

## U. N. Overcoming Language Snag

NEW YORK (AP)—Language problems, long a bugaboo of international gatherings, were minimized to the extreme Wednesday as United Nations marshaled a big force of interpreters, translators and clerks for the opening session of the general assembly.

Operating in five official languages—English, Russian, Spanish, French and Chinese—the world agency had a corps of more than 100 interpreters ready to put the addresses of the diplomats into words everyone could understand.

The speeches from the floor of the assembly will be carried only in English and French, the two working languages. But delegates can listen to an address in their own language at the moment it is being delivered in a foreign tongue.

For some of the committee sessions, to be held at nearby Lake Success, the U.N. will institute for the first time a regular system of simultaneous telephone interpretation. With this device, delegates can listen to an address in their own language at the moment it is being delivered in a foreign tongue.

Each seat in the room is equipped with a microphone and a control switch. For instance, when the Russian representative speaks all other delegates not understanding that language merely switch their own microphone to receive the Russian speaker. When the Chinese representative speaks, the Chinese switch is turned on.

In previous assembly sessions all the delegates have spoken in one of the five languages. Should they desire to use any other they may do so with the understanding they provide personal interpreters.

## U. N. General Assembly Meeting Opens in New York Today

From all parts of the world delegates to the general assembly of the United Nations gathered Wednesday for the first session of the assembly meeting, which was postponed from Sept. 2 to permit the completion of the Paris peace conference. They met in the new York city building, shown here, which housed administrative offices of the 1939-40 world fair, a temporary site while a permanent home for U.N. is chosen. Symbols of the international scope of the assembly is the display of flags (top) outside the building.

## Continue Argument On Freight Rates

(Continued from Page 1)

MacPherson, a being asked to order a reduction of Waterways rates to existing "prairie" rates. Mr. Drummond said that the N.A.R. rate for first class freight from Edmonton to Waterways was \$1.70 per hundred pounds, compared to the prairie rate of \$1.13 per 100 pounds, or a difference of 50.4 percent.

Nellie V. Buchanan, appearing for Mr. Drummond, contended it was up to the railway to prove that these rates were not discriminatory, unjust or unreasonable.

On the fifth day Wednesday, J. M. MacArthur, general superintendent of the N.A.R., said in reply to Mr. Buchanan, that the Waterways subdivision because of operating difficulties such as a strike, were part of the reasons for the higher rates.

Factory in Structure

He also said that the kind of traffic, cost of operation and tonnage were factors in determining and influencing the freight rate. In reply to Mr. Buchanan, he said he would not admit that the rates on the Waterways subdivision were "higher in some."

MacArthur said the N.A.R. did not set the present freight rates. "They were in existence when the N.A.R. was incorporated and were set by the provincial government," he said. His views on the rates might have some force, but he said "we are owned largely by parent companies (the C.N. and C.P.R.) and are guided by the freight rate policy of the parent companies."

Coal Miners Get 17 1/2-Cent Boost

BREITMAN, Sask. (CP)—An agreement signed Tuesday between operators in the Breiten-Bentall coal field and the United Mine Workers (U.M.W.) provides for a boost of 17 1/2 cents an hour in wage and a 40-hour week for six months of the year and 48-hour week the other months.

Miners had asked for a \$1.80 a day increase.

One day's holiday per month with pay also provided for in the contract. Previously one-half day a month holiday with pay was granted.

The agreement has been forwarded to the federal labor board for approval.

The 40-hour week will be in effect from Oct. 16 to Dec. 15 inclusive and the 48-hour week from Dec. 16 to March 15 inclusive.

Hear Test on Bill Curtailing Appeals

LONDON, (CP)—In the lofty courtroom of the House of Lords, Lord Chancellor Jowett—highest legal authority in Britain—will hear testimony today on a bill to curtail appeals against the validity of Canada's "Bill of Rights" which would abolish the right of appeal to the privy council.

The attorney-general of Ontario, C. R. Magne, Toronto, argued that the bill was an integral part of the administration of justice in Ontario.

Ontario, British Columbia, New Brunswick and Quebec are opposing the bill. The attorney-general of Ontario, C. R. Magne, Toronto, argued that the bill was an integral part of the administration of justice in Ontario.

Talk Intervention In Pilots' Strike

WASHINGTON, (AP)—The government, preparing to intervene in the fast-raging strike of Trans-World Airlines pilots, turned today to a last-minute effort to bring about a settlement.

With Trans-World's 28,000-mile operations still shut down, the government is considering legislation that would end the strike.

Leo the Giraffe Dies in New York

NEW YORK, (AP)—Leo the giraffe, one of the favorite attractions at the Central Park Zoo, died Monday. It was announced Wednesday.

A native of Africa, Leo came to New York in 1937.

"Leo was everybody's favorite, one of the best," said a zoo official. "He came from all over to see him."

## Churchill Assails Russia's Policies

(Continued from Page 1)

ever a particular power was not in full agreement with others." He said the U.N. assembly was a security council as a propaganda instrument.

It is the desire of the government that this body should return to and fulfill its original intention," he said.

Urges Co-operation

The prime minister said: "We are deeply separated from Russia on the value we place on the liberty of the individual, freedom of speech and the maintenance of democracy."

"Nevertheless, we believe it is not our position but essential for us to work together in order to prevent the calamity of another war."

We must recall that it is the United Nations is very young—it is about to have its birthday."

Referring to criticism of the British policy in Greece, Mr. Attlee said:

That is to give the Greek people an opportunity to decide freely for themselves.

France "strengthened" its position in Spain and demands for British intervention in Spanish affairs, he commented:

"I suppose I have as much dislike of the Franco regime as anyone in the house. All the evidence in my disposal points to the conclusion that the threat of external interference has strengthened Gen. Franco's position."

Originally, Mr. Churchill said, it was intended as a last assurance to a government power that they should not be moved down on a matter on which they were prepared to stand.

Problem of Germany

Mr. Churchill turned to the problem of rebuilding Germany and declared:

We do not want to have the burden of rebuilding Germany placed on our shoulders and we certainly do not want to have it placed on Russia's.

The parents at a meeting Monday night decided to ask Education Minister Weir for assistance and a protest action of Richmond school board in discontinuing a special bus service to take the children to Vancouver schools.

The parents have decided, meanwhile, to contribute a month's salary to the R.C.M.P. force to replace that withdrawn by the municipality when the school board emergency shelter committee in Vancouver had failed to live up to an agreement concerning transportation of the children to city schools.

See Possible Link Canadian Sinkings

MONTREAL, (CP)—The Montreal Daily Star said Tuesday it had learned the R.C.M.P. force had been asked to investigate the possibility that the sinking of Canadian ships in the St. Lawrence River was linked to the information allegedly supplied by an Argentine agent.

The Argentine was identified as Theodore Krimm, 44, arrested in the United States last week on his arrival from Canada and arraigned on charges of espionage.

The P.B.I. said he was a member of the R.C.M.P. headquarters in Ottawa said there was "no Canadian link" to the case although it most certainly would be investigated.

He thought the German agent was involved in the St. Lawrence river sinkings.

Testifies Judge Unfit to Drive

COBBOURG, Ont. (CP)—A police witness Tuesday described Judge J. C. M. German of Cobourg as being of alcohol and "not fit to drive" immediately after an accident Sept. 1 in which Mrs. Cyril Taylor, wife of the judge, was seriously injured. The testimony came at the preliminary hearing of Judge German on a charge of dangerous driving.

Constable Joseph Taylor said he saw the judge at the scene of the accident and that he smelled strongly of alcohol. The constable testified that Judge German told him after the accident that "he had had a drink."

Defence counsel suggested innocent shock as the reason for the accused's condition. Not asked Constable Taylor if he knew Judge German was a diabetic.

Quadruplets Now Two Months Old

PORTLAND, Ore. (AP)—Four lands quadruplets reached the age of two months Tuesday and a shopping "birthday" present marked the event.

It was a house—room, rambling structure suitable for a family of nine. The present home was all right for a family of five. But then the quadruplets came.

Reject Free State For North Ireland

BELFAST, (Reuters)—The Northern Ireland house of commons Tuesday rejected a motion for the setting up of an independent Irish state, which a company spokesman said, is asking a 30 percent increase in its rates.

Americans Shudder At Jap Fire Brigade

TOKYO, (AP)—Japanese firemen Wednesday paraded their might and equipment—creaky antiquated vehicles—and Americans, after taking one look at the parade, rushed to check their portable fire extinguishers.

## Housing Affects Mining in Quebec

ROUY, N.B. (CP)—Living accommodations and the employment problem go hand in hand in the mining industry of Quebec.

Mining men and employment officials agree there is a shortage of miners and the first solution they offer is to move more boys to the mines. If homes are provided, they contend, miners will become available.

"There is need in the Rouyn-Noranda district for about 2,000 underground men," C. L. Primeau, general employment officer here, said.

Quebec Needs More

"But the big difficulty in housing Rouyn-Noranda, which needs probably the largest number of both underground and surface men, is building a new bunkhouse which will house 50 men and has built a number of duplexes and brought in houses from Quebec City, but housing still is the big lack."

Mr. Primeau said Rouyn-Noranda, largest mine in the district, could use 600 more men and other mines need corresponding numbers in relation to their size.

In addition, the miners needed for the immediate expansion of the mines here, western Quebec, need automobile mechanics, plumbers and brick layers. He said: "We could also get from 1,000 to 1,200 men for lumbering operations."

Development Delayed

Scarcely a mine development project in this district is unaffected by the labor shortage. In addition, mines already in operation and employing about 10,000 persons, other promising discoveries are awaiting development.

Consistent with development of the Rouyn-Noranda district is the need to "learn to live" with the "A" and "B" mines. The "A" mines are the "B" mines. The "B" mines are the "A" mines.

Building Many Sheds

LONDON, (Reuters)—Merchant vessels under construction in the United Kingdom during September totaled 1,874,878 tons—highest since June 1922, when tonnage was 1,919,844. Lloyd's Register of Shipping declared Tuesday.

"Leo was everybody's favorite, one of the best," said a zoo official. "He came from all over to see him."

# All Lands Have Equal Voice In U. N. General Assembly

NEW YORK, (AP)—The United Nations general assembly is what many diplomats believe will become the "parliament of man" in a truly operating world government.

Right now it is a sounding board of world opinion. It is the one place where every country—big or small—has an equal voice.

There are 51 members in the present assembly. Each member is limited to five representatives. Each member has one vote. Here the big powers cannot be used. Decisions on important matters require two-thirds majority vote. On procedural matters only a simple majority is required.

## R.C.M.P. to Police North Battleford

HELMUTH, (AP)—The R.C.M.P. will take over law enforcement duties in North Battleford Nov. 1. Attorney-General Corman announced Tuesday. Two other Saskatchewan cities in the R.C.M.P. jurisdiction are Yorkton and Weyburn.

The R.C.M.P. took after the police duties in 27 towns in the province but no villages are under the force. The province is generally in police jurisdiction by the R.C.M.P. at a cost of \$275,000 to the province.

to endanger international peace and security. If the security council is unable to restore or to prevent or to maintain the functions assigned to it in the charter, the general assembly cannot make any recommendation with regard to that dispute or situation, unless the security council so requests.

On the other hand, the general assembly can suspend a member against whom force has been used, but only on recommendation of the security council. The assembly can also suspend a member for persistently violating the provisions of the United Nations charter.

If any country not now in the United Nations wants to join, it must first obtain the approval of the security council.

For instance, three countries—Sweden, Iceland and Afghanistan—have been approved by the security council for membership in the organization. The assembly can approve or reject these recommendations.

The general assembly cannot take action on questions relating to the maintenance of international peace and security. It can, however, only make recommendations on these questions. It has no power to take action. That power has been left to the 11-member security council, where the veto can be applied.

But the general assembly can call the attention of the security council to situations which are likely to threaten international peace.

Has Other Powers

While the assembly is powerless to act on questions that are within the competence of the security council, it does have other powers. It elects the six non-permanent members of the security council and the Economic and Social Council. It draws up the budget for the entire United Nations and collects fees from its members.

The assembly also is empowered to initiate studies and make recommendations for the purpose of promoting international co-operation in the political, economic, social, cultural, educational and health fields.

It is authorized to assist in the realization of human rights and fundamental freedoms for all without distinction as to race, sex, language or religion.

Grew Urges U. S. Stiffen Attitude

DETROIT, (AP)—Joseph C. Grew, former ambassador to Japan, said Tuesday that world peace could not be preserved with the United States standing "apathetically" while other people are absorbed into it.

In an address to the 11th annual convention of the United States chapter, International Criminal Bureau, his first major speech since leaving the state department after 41 years of foreign service, Mr. Grew said:

"I do not see how we or any other peace-loving nation can, in this day and age, stand apathetically by while other peoples are absorbed into totalitarianism, while their liberties are suffocated, their hopes for a better future rubbed out. World peace cannot be preserved on any such basis."

It is a profitable enterprise for the professional criminal. The R.C.M.P. may, will be realized when prevailing prices on the illicit market are taken into consideration. For example, in Winnipeg in 1947, a street peddler could get \$4.50 for a grain of heroin, while in Vancouver morphine and heroin were being sold at 20¢ per grain. The local market prices for these are approximately 1¢ per grain for morphine and 10¢ for a grain of heroin.

He said that the R.C.M.P. has developed a type of chicken that produces eggs with more yolk than others. From there on, the hunt for the less creditable and was simply a matter of breeding.

By the time the laboratory has developed a type of chicken that produces eggs with more yolk than others. From there on, the hunt for the less creditable and was simply a matter of breeding.

## Wins Cole Trophy for Horsemanship

THOMAS, (AP)—Edmonton, Alberta, October 23, 1948—Edmonton Bulletin

Thomas, 46, of Edmonton, is shown with his horse after winning the Cole trophy for intermediate horsemanship at the fall riding meet of the Edmonton Riding and Hunt Association. He was competing in the event by Miss Audrey Fullerton and Miss Lois Haigh. Gilbert Cole, also of Edmonton, captured the Lord trophy for senior horsemanship at the event.

## Reward Offered For Jewels' Return

LONDON, (AP)—Agents for the Duke of Windsor Wednesday advertised a reward of £200 (\$400) for the return of jewels stolen from the duchess last week.

Scotland Yard, meanwhile, was faced with three major thefts. One jewel was stolen from a necklace of a solid-gold ring. Another was a diamond necklace. A third was a diamond necklace.

Jewelry valued at £700 (\$4,000) was reported taken from the hotel room of Mrs. Esmé Laughton, a wife of a Canadian millionaire, and a trunk containing a diamond necklace and other articles valued at £200 (\$400) was stolen from the apartment of Mrs. M. Sharp, a Canadian lady.

## Scientists Seeking More Durable Egg

WASHINGTON, (AP)—Agriculture department scientists today were working to get an egg that will last longer than the one that is used today.

Scientists are seeking a shell that will last longer than the one that is used today. They are seeking a shell that will last longer than the one that is used today.

## Won't Stand Trial For Infant's Death

WINNIPEG, (AP)—CP—Albert Allen, 27, alleged to have murdered his two infant children, was found mentally unfit to stand trial in court here Tuesday following a hearing of the preliminary jury of mental illness.

Allen walked into the city police station on Sept. 24, declaring, "I have just murdered my two kids. Put me away." An investigation at Allen's residence revealed the bodies of two children, a bloodstained handkerchief and a 1-in bar (yarn) nearby.

## See Fresh Round Of Wage Demands

VANCOUVER, (AP)—Delegates to the Vancouver Labor council, C.I.O. warned Tuesday night that Canada will see a new round of wage strikes by organized labor next year if present price rises continue.

They criticized what they called "unreasonable" demands that the year's wage raises were the cause of price increases, claimed there was an "inflationary campaign" to convince the general public that this is so, and called for an immediate full-scale campaign to "hold the price line."

A committee will be set up to co-operate with other groups in a "united front" campaign to convince the general public that this is so, and called for an immediate full-scale campaign to "hold the price line."

Harvey Morley, national director of the United Mine, Mill and Smelter Workers' union, said that the union should be paid to "white out" workers and other "unreasonable" demands that the year's wage raises were the cause of price increases, claimed there was an "inflationary campaign" to convince the general public that this is so, and called for an immediate full-scale campaign to "hold the price line."

# Suggests Universities Agree Refuse Do Secret Research

PHILADELPHIA, (AP)—Sir Henry Deane, noted British scientist, proposed Tuesday that the world's universities might prevent secret plans for war by a "world-wide agreement" designed to carry on research under military secrecy.

"Could not the universities of the world unite in banning secrecy from any activities of their departments?" Sir Henry asked.

In an address before a distinguished group of scientists from 30 countries at a meeting of the National Academy of sciences, he said: "Nobody can deny with future discovery may offer, or predict that might be the result of even the smallest of ideas."

He added, scientists may be free to publish their research, but the freedom of research without secrecy is a "double-edged sword" which produces the atomic bomb, a side which is the result of even the smallest of ideas.

# Nations Are Staging Minerals Scramble

PHILADELPHIA, (AP)—John A. International scramble to underwrite the world's minerals resources. Dr. Charles K. Leitch, widely-known geologist, said Tuesday.

The resources include scarce ones, such as are used in atomic bombs, as well as more abundant ones, such as in a paper program for the Philadelphia meeting of the National Academy of sciences.

He added, scientists may be free to publish their research, but the freedom of research without secrecy is a "double-edged sword" which produces the atomic bomb, a side which is the result of even the smallest of ideas.

You can almost see his eyes light up when he sees his bright new wagon under the tree! There are only 50 of these bright new wagons—no shop early! They have large red disc wheels and rubber tires. \$6.95

Sporting Goods, Street Floor

## Allow Exemptions To Burns' Estate

OTTAWA (CP)—The Supreme Court of Canada Tuesday allowed in part an appeal by executor of the estate of the late Hon. Patrick Burns of Chicago against an income tax ruling.

The revenue department had held that income from the estate for the years 1938 to 1941 was taxable and no part was exempt on the ground that it was revenue to any religious, charitable, agricultural or educational institution. This ruling was upheld by an exchequer court decision which resulted in the appeal to the Supreme court.

The Supreme court held that two-thirds of the income—the provision to which the Lacombe home and the Salvation Army were ultimately entitled—was free of tax for 1938 and 1939. Mr. Justice Rand and Mr. Justice Estlin dissented. They would have exempted all for 1938 to 1940.

## Ontario Tobacco Crop Hits Record

SIMCOE, Ont. (CP)—Canada's 1940-flavored tobacco crop was disclosed Monday to have been a record-breaking 113,000,000 pounds, 24,000,000 pounds more than the previous record year of 1939. Board of directors of the Ontario Flue-Cured Tobacco Marketing association met to fix prices for the crop.

## Sweden's New "First Lady" Keeps Old Job

Vivacious Anna Islander, wife of Sweden's new prime minister, Tage Islander, even though she is now Sweden's "first lady" keeps her old job of teaching mathematics and chemistry at a girls' school in Stockholm. Mrs. Islander, who is very popular among her pupils, not only because of her educational methods, but also for her cheerful and good fellowship, is pictured (standing, center) with two pupils; Elsa Kierkeja, left, and Kerstin Hertzner, during one of her classes. Mrs. Islander is the mother of two boys.

## Politics Influence Opinions In Blame for High Prices

By Canadian Institute of Public Opinion  
TORONTO.—Opinion among Canadians as to what is responsible for rising prices differs mainly in line with their political leanings. In varying degree, the public attributes high prices to strikes and high wages, shortage and hoarding, tariffs and profiteering, with that percentage assigned to the "government" heading the list.

The question on which the Institute polled a carefully balanced cross-section of voters in all parts of Canada was:

"Where do you place the blame for present high prices in Canada?"

Replies aligned to a wide variety of factors which are grouped as follows:

Attributed High Prices to:  
The government: Prices board; etc. 22%  
Labor union tactics; high wages; etc. 14%  
Hoarding; consumer selfishness; black market; etc. 11%  
Natural after-effects of war; scarcity; shortages; etc. 10%  
Financial interests; manufacturer; middleman; capitalist system; etc. 6%

## Aid Is Promised Tourist Industry

OTTAWA (CP)—Trade Minister MacKinnon told delegates to the first dominion-provincial conference on the tourist industry here Monday, the industry "demands and will receive every possible assistance" from the dominion government.

D. Leo Dolan of Ottawa, chief of the Canadian Travel Bureau and chairman of the conference, said the prime purpose of the conference was to integrate the plans of the various provinces with those of the Canadian Travel Bureau.

Mines and Resources Minister McDougall of Manitoba said the tourist business was a national job. Sectional and provincialism should not enter into discussion.

If Canada had a trans-Canada highway it would be to the people of the provinces together and "strengthen the fabric of the country."

## National Policy On Coal Sought

HALIFAX (CP)—A recommendation for a national coal policy will be put before the meeting of the committee of ministers of mines and fuel authorities in Ottawa which opens Wednesday. Mines Minister L. D. Carrié said here Monday.

Mr. Carrié, who is chairman of the committee, left for Ottawa Tuesday to attend the conference.

Other matters before the conference, he said, include recommendations for appointment of representatives from each province to study conservation of mineral resources, and co-ordination of research activities among governments, universities and industry.

Mr. Carrié said the recommendations, studied at a meeting of the committee in Winnipeg three weeks ago, would be presented to the federal authorities at Wednesday's conference.

## Scientists Talk Outlawing of War

PHILADELPHIA (AP)—A path to "one world" unity in which the use of science to further peace would be outlawed was discussed Monday by international scientists in their first major post-war meeting.

Dr. Harlow Shapiro, director of Harvard college observatory and acting president of the American Astronomical society, said approximately 100 delegates that "international peace is the No. 1 necessity. If a war is to progress unhindered."

## Sees Britain, U.S. As Key to Peace

NEW YORK (AP)—Viscount Bouverie, chairman of the Newspaper Proprietors' Association of Great Britain, said Monday that the world could have peace for at least 25 years provided the United States and Great Britain stand together.

The British publisher, who with Viscountess Bouverie arrived on the ship Queen Elizabeth, said he had written to the Prime Minister, Churchill, on the need for continuing the military cooperation between United States and Britain.

## Civilians to Get Chance at Suits

OTTAWA (CP)—A privy council spokesman said Monday that with clothing priorities for veterans being dropped at the month-end the ordinary civilian should be able to shop successfully for a suit in time for the Christmas holidays.

Dropping of the priorities means that some hundreds of thousands of suits upon which discharged veterans had first call soon will be available on the open market.

Due to textile shortages, the shops have been kept on strict quotas on suits and replacements to fill suits sold from those quotas could be obtained only by the merchant turning back a serviceman's priority certificate.

This system has resulted in suits confining their sales almost exclusively to the military and to keep enough stock on hand to continue business. Textile suits are in short supply but the stocks being produced will go on the open market next month instead of being reserved for priority holders.

## 'Cabbie' and Taxi Get Ride Home

SAN FRANCISCO (AP)—Cabbie Earl L. Piesman was willing to admit Tuesday that the situation here is to stay.

Piesman, a party from San Francisco across the bay bridge to Oakland airport, said he was returning. One of his passengers inquired how he was returning.

The same way I got here—across the bridge," Piesman retorted. "I would like you to fly back."

"Inquired the fare."

"Sure, sure—what do I do with my cabbie?" he asked.

"Well, take it along, old boy," announced the fare, who introduced himself as Tim Sims of Montreal, British of the touring British Brig.

Tight situation here on demonstration.

Said somewhat confused, Piesman backed his cab up the ramp to the plane, and was then escorted by the bay to Mills airport near San Francisco.

With a dazed expression, he drove off.

## B. C. to Classify Tourist Facilities

OTTAWA (CP)—Canada's tourist industry needs a guarantee of continued success, Trade Minister MacKinnon said Monday.

Mr. MacKinnon spoke at a conference of provincial tourist officials, called by Trade Minister MacKinnon.

"By and large, our greatest asset is our country to visitors," said Mr. MacKinnon.

"The industry to be no better than its accommodation and the B.C. Tourist Bureau intended to start a system of rating classification. The aim was "proper accommodation, right price."

Registered with the bureau were 827 resorts valued at \$100,000,000 and able to accommodate 20,000 persons. "Good as they are," they are being improved to meet the critical tastes of tourists.

## Claim Apples Lost Because No Boxes

VANCOUVER (CP)—The Vancouver News-Telegraph said Monday that millions of apples will be left on the trees of the Okanagan valley this season because of a shortage of packing boxes.

The story said that despite a crop surplus, local exporters, many growers are unable to pack their crop.

## RUSSIAN FAMILIES MOVED MOSCOW

MOSCOW (AP)—A Tass dispatch from Minsk said Tuesday that Russian families from the Kolyma region, formerly Kolyma, in East Prussia, would be moved to Nov. 7. That reported 1,700 families had been transplanted and equipped with farms and animals.

## Finds Production Going Full Blast

MONTREAL—Prophets of gloom who predict a business recession "should see their Canada at first hand," said N. B. Hargrave, C.I.B.A. executive vice-president, of the C.N.R. on his return from a three-week inspection of the company's western facilities.

"If the real cause for inflation is production, then Canada is doing all right in this postwar world. I have never seen our country working so hard at peacetime production."

"Nature has been especially bountiful this year. There is an excellent grain crop and much of it is already on the way to market. The Okanagan valley has a near-record fruit crop which is being picked and shipped rapidly. Good crops mean prosperity for eastern as well as western Canada. I see no reason for pessimism," he concluded.

## she refused to eat what she needed—till!

ANOTHER IN KELLOGG'S SERIES OF TRUE-TO-LIFE STORIES

Thousands try Kellogg's 30-day test  
1. Just thirty days should prove to you how grand it is to feel alert, to have the energy for all the extra things you like to do.  
2. Start right now to eat Kellogg's Bran Flakes every morning. No hard doses... just keep fit the natural way! Get more of the "bulk" your system needs by eating delicious, gently laxative Kellogg's Bran Flakes with Other Parts of Wheat.  
3. If you're really ill see your doctor! But if you just feel dull and headachy, you may only be suffering from incomplete elimination. Especially if you're over 35! Once you see how one simple change of diet can help you keep fit, you'll want to go on keeping fit the Kellogg's way!

For better-tasting Bran Flakes, look for the big golden-yellow Kellogg's package

# The Bulletin's Sports Editor

It is possible that the Bulletin's sports editor will be changed at the annual convention for Edmonton is seen in the fact that Eastern Montana Normal School of Billings, has made overtures for a home and home series with University of Alberta.

Prof. H. H. and 12, according to Prof. Murray Van Vleet, director of athletics at the University, providing satisfactory place accommodation for those dates can be arranged.

Billings, Mont., teachers would like to come here for games on Feb. 11 and 12, according to Prof. Murray Van Vleet, director of athletics at the University, providing satisfactory place accommodation for those dates can be arranged.

Billings, Mont., teachers would like to be included in any itinerary the University of Alberta carries might arrange, and Carroll College in Helena, Montana, also has extended in invitation to the Golden Bears should the Albertans undertake a road trip this coming season.

## Valuable Hockey Reference

A copy of 1946-47 official rules and records of the Amateur Hockey Association of the United States has been received by this department. Thomas P. Lockhart of New York, heads this association which of course is a member along with CAHA of the International Ice Hockey Association, the president of which is Dr. W.C. Hayes of Edmonton.

Compiled under the direction of Vernon Thomas of Baltimore, chairman of the committee, the issue is an authoritative and comprehensive review of the operations of the association and its four affiliates — Eastern, Pacific Coast, Metropolitan (New York), and International (Detroit Windsor) amateur leagues.

In addition to furnishing scoring statistics for last season, the publication also includes league and national records, both individual and team, dating back to the commencement of the association which was formed in 1887. Months of careful research must have been involved and Chairman Vernon Thomas and other officials responsible are to be congratulated upon turning out such a compact and complete work.

## Pringle Third in Scoring

Of special interest to Edmonton hockey fans is the fact that Jack Pringle (Vancouver) has been named as one with Flyers finished in third place for scoring in the Pacific Coast League's north division, with a total of 94 points, made up of 53 goals and 41 assists. Alex performed the last trick nine times, which was a U.S. record.

Fred Smith (Vancouver) and Elmer Kretzer (Vancouver), but now also with the Flyers, finished in a tie for 12th place with 64 points. Smith scored 37 goals and Kretzer, 31 and Smith went through 55 games without a penalty. Harry Black, tonight's game against Spokane and may be given the opportunity.

Normie Kirk, now here with Junior Canadian, played for San Diego and in 23 games collected 22 points, including 16 goals. "Dutch" Van Driel (San Francisco), now back with the Flyers, gathered in 30 points in 30 games, while Harry Allen (Oakland-Los Angeles) had nine points in 19 games and Defenceman Jack Kirk, who has just arrived to join the Flyers was in 12 games for San Diego and had three assists, before retiring because of illness.

## Flyer Defenceman Arrives

Jack Kirk, defenceman arrived in the city Tuesday for a tryout with the Flyers. Jack, 17 pounds, shoots from the left side and plays playing defence although he has worked at centre.

Jack learned his hockey in Saskatoon, later moving to Nanaimo where he and his brother Normie played together. He has had five workouts so far this season at Trail, but would like to get into tonight's game against Spokane and may be given the opportunity.

Coach Ryley Mullen says his team for the Spokane exhibition will be substantially the same as used against Los Angeles last Saturday. Ken McAuley was out for practice Tuesday and will likely be out tonight for at least part of the game. Ben Barker will not be available, nor will Johnny Black.

# Sask. Junior Hopes Brighten With Wins

REGINA, Oct. 23 (CP) — Always one of the happiest hunting grounds of National Hockey League scouts, Saskatchewan provincials today won a new exhibition match against the team junior circuit and an 84-game schedule opening here next week.

Prospects that a Memorial cup winner might emerge from the team brightened last week-end when Regina Patrias dumped Winnipeg 5-1 in an exhibition match against the team junior circuit and an 84-game schedule opening here next week.

The BUSTLING PALS brought a lump to the Toronto of old-time hockey fans who remembered that team of more than a dozen years ago. Regina's Alex Pringle, who merged this season and took the famous name.

Coach Moose Silvestro has the same beef as most western amateur hockey menors this season—lack of defencemen—but with the best of two teams to choose from, he has emerged with a strong outfit.

MOOSE JAW CANUCKS, led by pre-war N. H. L. star Ken (Mighty Mike) Doran, also licked the Monarchs at the week-end to the tune of 4-2. Doran has gathered his flock from all parts of the province.

Notre Dame Hounds, fabulous Father Albius' crew from Wilcox is the third member of the southern section of the league. The kids will get their first-hand knowledge of the province as each team will make two sweeps during the season through the opposite section of the province.

THE NORTHERN section includes Saskatoon Quakers, Prince Albert Black Hawks and Humboldt Indians. The Prince Albert boys will travel more than 100 miles to the Saskatoon rink for a game in and in an ensuing penalty box fight, the team will be out to the north.

Humboldt will have to wait until the freeze comes but mentor Bill Slater, former Canuck coach, is confident of a good showing by the newcomers to the hockey wars.

Beau Jack Loses To Buster Tyler  
ELIZABETH, N.J., Oct. 23 (AP)—Buster Tyler, 142, of Newark, came back from his first round in the first round to score an amazing upset over Beau Jack, contender for the welterweight title for August, Ga., in a 10-round bout which ended in a technical knockout.

With but a few seconds remaining in the first round, Jack whipped over a right hand punch to send Tyler halfway through the ropes. The count reached two as the bell went.

Jack tried to get back to the ring but was unable to do so. Tyler, the former long lightweight king, landed the next five rounds in a masterful exhibition of boxing.

EAC Juniors To Meet at Macdonald  
All players from last year's EAC hockey club and unattached players wishing to try out for positions on this year's club are asked to be on hand to meet with junior coach LeRoy Goldworthy at the Macdonald hotel, Thursday night at 8 o'clock.

# Says Williams Should Change Present Stance

ROYSTON, Ga., Oct. 23 (AP) — Ty Cobb, who could hit them anywhere, believes American League clubs will change their stance on the matter unless the Boston Red Sox slugger changes his batting stance and learns to place his drives.

The Georgia Peach said St. Louis Cardinals tamed Williams with an overhauled defence and inside hitting. Cobb said he would like to see American League teams can't stop him the same way the Cardinals did.

The Junior circuit never could curb Cobb during his years with the Cardinals when he led league hits 12 times. But, Cobb admitted, he could place one on a pop bottle with his left hand.

"In my day we couldn't call anything. I couldn't find any all fielder," he recalled. "Williams must be remarkable if he can hit the same fielder in the right position still can't stop him."

Ty, who is visiting his home here, believes Ted Williams would make a better record "if he learns to place his drives." He said Cardinals pitchers took advantage of his fruit and kept them inside so Williams couldn't find the right fielder.

Cobb said a new stance would enable the Boston slugger to make a better record "if he learns to place his drives." He said Cardinals pitchers took advantage of his fruit and kept them inside so Williams couldn't find the right fielder.

Cobb said a new stance would enable the Boston slugger to make a better record "if he learns to place his drives." He said Cardinals pitchers took advantage of his fruit and kept them inside so Williams couldn't find the right fielder.

# Wouldn't Even Consider Default

CALGARY'S FOOTBALL CLUB WOULD GO EAST FOR FINAL  
CALGARY, Oct. 23 (CP)—Will Stampeders go east in quest of the Grey Cup if they win the western Canada football title or will they leave the cup go by default in view of the alleged strength of eastern teams?

That query came from the east and the Stampeders executive — Jack Griffin, Don Griffing, Jack Lawrence, Archie McMillan, et al. — answered in unison: "We certainly will go east."

There was complete accord in the club's decision and Stampeders are also counting on the harmony and team spirit of the squad to carry Calgary to victory over Winnipeg's Blue Bombers in the eastern final series which starts Saturday at Mewata stadium.

Stampeders have a home grown team, with four former American players who were in a decade ago and decided to stay. It is also a co-op team, with players sharing in the profit. The revenue from an east-west game isn't tossed off very easily.

The four players who had a turn at U.S. college football are Don Griffing, Paul Ross, Hal Harrison and Jerry Seagrath. A few started playing football in Winnipeg but the bulk of the squad came up through Calgary junior ranks.

Stampeders have a home grown team, with four former American players who were in a decade ago and decided to stay. It is also a co-op team, with players sharing in the profit. The revenue from an east-west game isn't tossed off very easily.

# Abel Early Leader

Abel Early Leader  
NHL Scoring Race  
MONTREAL, Oct. 23 (CP) — National Hockey League statistics, released Tuesday, showed Syd Abel, speedy forward of Detroit Red Wings, leading the individual scoring parade with two goals and three assists accumulated in three games played since the season's start.

Harry Watson of Toronto Maple Leafs was in the second slot with two tallies and a pair of assists. A third place for the third place of Adam Brown of Detroit with two markers and an assist. Ken Reardon of Canadiens with one goal and two assists and Toronto's Ted Cullip of Canadiens with one goal and two assists.

Bill Durnan, goalie of Montreal Canadiens and Vesna trophy winner for the last three seasons, turned in the first shut-out of the 1947-48 season. Durnan handed the New York Rangers a zero in the opening game of the season at Montreal when the Leafs blanked the Bluebirds 5-0. Big Bill had also turned in the first shut-out of the 1947-48 season.

Big Bill had also turned in the first shut-out of the 1947-48 season. Durnan handed the New York Rangers a zero in the opening game of the season at Montreal when the Leafs blanked the Bluebirds 5-0. Big Bill had also turned in the first shut-out of the 1947-48 season.

# Pre-War Athletes Get Another Chance

NEW YORK, Oct. 23 (BUP) — The aging pre-war athlete is being given another chance to come back as the National Hockey League swings into its second post-war season.

The team in particular—the Boston Bruins—will rely strongly on the ability of former stars to re-form. And the fact that three young men will be making to hold the club together points to an exciting night. It won't be the first one they fought together, either.

The three young men are hockey players and they're not so young that their average age is 29. They are the former Boston's Keithen or Knut Ivers, formerly one of the most feared forward combinations in the league.

THE SELF STYLISH "three musketeers" who grew up together in the same town, made their National Hockey League debut in the 1927-28 season. They blossomed into about the finest line, both offensively and defensively, in the loop.

With big Milton Schmidt making plays as speedy as they were imaginative, Woody Dumart (Doo-mart) driving his whistling shot at the corners and little Bobby Bauer (Boo-er) providing the spark, they piled up point after point. Their biggest year came in the 1934-35 season when they were named as one of the three league scoring pace setters.

They were alternated in pre-season games but Lumley, who is only 19, drew the first two league starting assignments. Manager Jack Adams said Mowers would have "every chance to get his old job back," but that he intended to keep both gun as long as they played on even terms.

But whatever misgivings he may have had were swept away by six of them in previous years. When the war the Bruins have not developed a single new star to measure up to the standard of the pre-war "Kitchener line." True, they have some promising young players, but it's obvious from last season's play that the Bruins will not win the Stanley cup unless they lose together.

The men of Kitchener found themselves hard put to cope with the youth and speed of Les Canadens (Lay Kul-nay-ee-eh-eh) last season.

But this year they have time to round into pre-war form... and it may be the younger line of old that will win the Stanley Cup this season. If so, the Bruins will be a real contender for the Stanley Cup. If not—another great sports combination will have completed its era.

## Britons Sidestep Closed Shop Test

**By Frank Swann**  
BRIGHTON, Sussex.—The powerful Trades Union congress representing about 8,000,000 British workers Tuesday at its 10th annual general conference here affirmed its belief in the controversial closed shop issue and at the same time sidestepped what was one of the most potentially explosive issues in conflict with the labor movement in this country.

With virtually all of the 800 delegates representing 192 unions agreeing to adoption of the resolution on the closed shop, the matter received overwhelming support from the rank and file of membership—the same people who elected the labor government.

But what was not generally realized was that the whole issue of the closed shop was dumped back into the lap of individual unions through skillful manipulating on the part of the general council, governing body of the Trades Union congress. There is now no government as a result of the congress decision, to admit legislation making a closed shop compulsory in British industry.

Congress, being well aware that it is the fall which was the dog—the dog in this case being the labor government—was not running the risk of traditional British opposition to encroachment on individual citizens' rights.

Why congress leaders knew that should the issue ever come before parliament, the Conservative opposition would become a spearhead of public anger which might turn the labor government out of office. As the matter stands, the Trades Union congress has adopted the principle of the closed shop, but has left to each union the matter of implementing the law with employers in each particular industry.

## Regina Major Tried In Army Cash Case

LONDON, C.P.—Major William Osmund Smith, 45, of Regina, yesterday in the Royal Canadian Army Pay Corps is under arrest pending completion of the findings of a court martial which tried him on charges connected with the use of army funds.

Smith, headed not guilty to fraudulently misappropriating his own tax \$3,800 (\$38,400) of public money or part of it with intent to defraud while acting as paymaster during the period of the findings of the court martial which tried him on charges connected with the use of army funds.

He was charged alternatively with neglecting his duty to the prejudice of good order and military discipline by being unable to account for the money or part of it.

Smith was responsible for advancing requisition money to members of the Canadian army returning to Canada.

First Mexican Cattle Arrive to Relieve Shortage

A few members of the first contingent of Mexican cattle to arrive in the Chicago Union stockyards from Mexico are shown in their pen shortly after arrival. They are brahma cattle and should provide good steaks. Opening of the Mexican border for cattle buying is expected to help in meeting the meat famine that has been causing much worry and fever in the United States.

## Canadian Production Rises To Records in Many Lines

**By Richard Sanborn**  
OTTAWA.—Despite strikes and the many "hiccups" in the recovery process, Canada is setting new and impressive production records. Many industries are setting new records, and Ottawa is watching the process with intense interest, for the obvious reason that the country's all consumer goods are in ample supply, the sooner income can be obtained.

Many things are reaching retail stores in quantities far above pre-war levels, but with a skyrocketing demand to take care of, there are still shortages. Nevertheless, these new production peaks mean national income is being kept at a level that few optimists would have dreamed of a few months ago.

Here are a few examples:

Shoes, not in especially good supply during the war, are going out to retail shops at a rate much higher than the best pre-war years. Production now is about 40,000,000 pairs annually compared with 24,000,000 in 1937, and it is still going up.

More Radios Produced

People who have been complaining about their inability to find a new radio will be surprised to hear that in the first seven months of this year 230,000 sets have been produced, and that 40,000 sets were produced in July in 1937, the total production was 280,000.

In production of range boilers, the figure is 25 percent above the best of recent years and 30 percent above pre-war production. In 1937, point production stood at \$25,000,000 annually. To the end of August this year, production is running at \$50,000,000 annual rate.

Production of hot air furnaces now is running around 40,000 a year, compared with 20,561 in 1937.

Storage battery production, at a low level early this year, now is running about 17,000 monthly. This is well below the pre-war figure, but it is increasing steadily.

Roofing, shingles boom

Asphalt roofing, vital to new houses, is at an all-time high. Shingles are pouring from the factories at double the 1939 rate. Asphalt shingles produced in August, 1938, totaled 6,743. In August this year the production was 96,719.

Despite the steel strike, production of pig iron is not expected to be below the 1937 figures, and 1937 was one of the best pre-war years. The same is true of steel ingots and castings.

Sales of gasoline are at an all-time high, and in May and June soared well over the 100,000,000-gallon mark. Cement, also vital to new construction, is coming out of the factories at a rate far above the million-barrel point every month and each barrel weighs 300 pounds.

## Archbishop Is Held In Chinese Prison

SHANGHAI, (AP)—Archbishop Victor, head of the Russian Orthodox mission in China, was removed Monday from one notorious British House jail to Ward Road jail, the world's biggest prison. No charges have been preferred against Archbishop Victor, arrested Saturday on orders of the ministry of national defense at Nanking. The Chinese press accuses him of collaboration with the Japanese in the war.

## Coast Boat Sinks But Crew Rescued

PRINCE RUPERT, C.P.—The crew of the American cargo tender America which sank in Grenville channel following a collision with another vessel, were safe Monday aboard another boat and en route to Seattle.

Collector of Customs J. H. McLeod said all aboard the America, a 60-foot diesel fishing vessel, had been rescued by another tender, the Heisen B and were being taken to the Washington port.

## Polio Declining Across Canada

TORONTO, C.P.—With advent of cooler weather, incidence of infantile paralysis across Canada sharply declined although new cases still are being admitted to hospitals and deaths from the disease have been reported within recent days in widely-scattered parts of the Dominion.

Real point of the disease this year was the Montreal area, where more than 50 percent of the total Quebec cases were treated. Number of cases treated in Montreal hospitals was 1,281, of which 53 resulted in death, reports compiled by The Canadian Press show.

Figures for eight Canadian provinces, excluding Quebec where complete returns were not available with death figures bracketed, are: British Columbia, 14 (0); Alberta, 70 (7); Saskatchewan, 31 (4); Manitoba, 48 (3); Ontario 413 (28); New Brunswick, 87 (3); Nova Scotia, 19 (3); Prince Edward Island, 74 (13).

## Lauds Canadian Oceanic Airline

FORT WILLIAM, C.P.—The Canadian trans-Atlantic air service was the only reliable one operating at present, Reconstruction Minister Howe said in an address here Monday night.

"We are running a plane a day both ways and conforming to a regular schedule," he said.

Mr. Howe said he expected there would be enough planes to inaugurate a new "express" service coast-to-coast by next spring. The express planes also would carry passengers, he said.

He had put 27 new Douglas planes in commission between Winnipeg and the east, would have two North Star four-motored planes on the trans-Atlantic service by the end of November and six by the end of the year.

## Glass Chip Is Fatal, \$3,390 Suit Upheld

OTTAWA, C.P.—Damages of \$3,390 awarded in the death of Mrs. Gladys Mahon of Montreal, who allegedly was fatally injured by a glass fragment in a jar of horse radish, were restored Tuesday by a judgment of the supreme court of Canada.

The action was taken by Harry Mahon and his two children against Mrs. Bonnie Lang of Montreal, producer of the horse radish. Evidence was that Mrs. Mahon had purchased the product from a Montreal grocer in April, 1944. She became ill, and an operation disclosed a fragment of glass which had perforated the wall of her stomach. The glass fitted a break in the horse radish bottle.

## Smartly Tailored Chesterfields Everyday Service Fall and Winter Coats

Fitted and Box Styles Fully Interlined-Chamois to Waist at 27.50 to 45.00

Judged from every angle these everyday service Winter Coats are "tops" in the estimation of business girls, collegians and teachers who first of all want a coat that is smart, practical and warm.

● Fitted and box styles with supple well-cut body line... tailored and balmalman collars of velvet... slash and patch pockets. Tailored from fine wool suede rears and wool slaps in black and navy. Lined with durable satin, plain or quilted and fully interlined—chamois to waist. Sizes 22 to 40. Priced at 27.50 to 45.00.

## Mink-dyed Side-pelt Muskrat The Season's Most Outstanding Value in Fur Coats

You'll be thrilled with the coats for they have all the style and a very similar appearance of the much more expensive centre-back pelt muskrat coats.

These attractively styled low-priced coats are made from the sides of fully prime pelts, cut in strips, firmly sewn and dyed a mink color.

This skillful and thrifty process of manufacturing explains how it is possible to sell these coats for at least \$100 less than the centre-back pelt coat.

● Smart, boxy styles with swing back collars... push up and roll-back sleeves. Lined throughout with heavy satin. Sizes 12, 14 and 16. Priced at—

215.00

● Turns for approved charge according to agreement with W.P.B. regulations.

## New Hats of Fine Fur Felt Styles to Accentuate Your Individuality

at 7.50 to 20.00

Tall, crowned style, smart clothes, new berets, equally smart. Crowned with a distinguished touch. Tricorner, high Pillbox style, back off the face types and scores of other new styles with appealing ostrich feathers, wings, veils, pom-poms, pretty ribbon bows, mousses and coque feathers.

Shown in black, brown, grey, moss, wine, nutmeg. Priced 7.50, 8.95, 10.50 to 20.00.

## Cleverly Designed Crepe Frocks For Business, Afternoons and Evening Wear... Mostly Black

Frocks of the "go everywhere" type... tailored styles to wear to business—buttoned down front or to the waistline and finished with a gored skirt.

The more dressy styles are trimmed with effective shirtings, bows and fancy buttons—some with peplums. V-neck and tailored necklines... cap, three-quarter and full length sleeves. Gored skirts.

Mostly fashioned from rayon crepe—a few are of satin, in black, Queens blue, aqua, dark green, romance, mauve and black—mostly black. Sizes 12 to 20, 22 to 38 to 44... and 18 to 24.

19.75

## Add Glamour to your Hairdo! Mantillas... Bandeaux... and Calots

● Exciting new mantillas in long styles, of fine black lace with, genuine emerald. Priced—

9.95 to 12.50

● Lace triangle shaped headpieces attached to hair band. Priced—

5.25 to 12.50

● Bequin Calots of silver, gold, black and bright colored sequin in floral designs. Priced—

2.95 to 6.95

● Chenille Hairs for evening formal and informal wear in black, grey, cerise and lime. Priced—

2.75 to 3.75

## Colorful Seersucker Housecoats Styled for Convenience and Comfort

You'll love the convenience and comfort of these attractive housecoats of colorful cotton seersucker. Cut in popular wrap around style, they have smart notched collar, short sleeves, handy pocket. Shown in blue, wine and rose background with bright flowers. Sizes 40, 42 and 44. Price—

5.50

## Grenier Step-In Corsettes

An ideal corset for women with small bust and full hips. Made from rayon brocade with plain broadcloth bust section. Boned front and back... side sections of elastic. Length 16 inch. Sizes 38 to 48. Priced at—

5.00

9 out of 10 Screen Stars use Lux Toilet Soap—You try it!

In recent tests of Lux Toilet Soap facials by skin specialists, actually three out of four complexions improved in a short time.

Lions Club Executive Speaks Here

"Can anything be done to place in their proper news-worth the items which serve to embelish and sensationalize incidents of really insignificant value?"

THIS, TUESDAY, was a challenge to Canadian newspapers advanced by Walter C. Fisher, president of the Lions International, which has an international membership of more than 290,000.

Mr. and Mrs. Fisher are guests at the Macdonald hotel and will be in Edmonton until late Wednesday evening, when they will leave for Saskatoon and Winnipeg, where the international official has speaking engagements before returning to Quebec after a goodwill tour of club districts throughout the western part of Canada.

MR. FISHER will speak Wednesday at 6 p.m. to representatives of Lions club organizations from Edmonton, Leduc and Hugenugan on the subject "National and International Goodwill."

"As a service organization, we are trying to unite rather than tear apart," said the young official, who as international controller represents the fastest growing service club in the world which according to records shows that Lions clubs multiply at the rate of 5,000 a month throughout North America.

He was critical of treatment given by the press to items which, while providing sensational headlines, were of small importance when analyzed. This was especially true of the existing "differences" between the east and west in Canada, he stated.

Mentioning the recent occurrence of Canadian strikes, Mr. Fisher said "there is too much fear of Communist influence."

"Until we can get along with ourselves we cannot expect to get along with other nations," he observed.

Mr. Fisher cited the record of Lions in Canada during the war. They had sent over \$2,000,000 in relief to bombed-out children of Britain under the Lions' British Child War Victims' Fund and to the Walls and Strays Society of England.

He mentioned also the work of Lions' organizations in connection with the Canadian National Institute for the Blind, which received primary consideration from the Lions clubs throughout Canada.

THE NEXT international convention will be held in July, 1947, in San Francisco, he said, with the convention of district 37, which includes Edmonton, will be held in Great Falls, Minn. in June.

Mr. and Mrs. Fisher were met here at the station by G. K. Kirstine, local president and Mrs. Kirstine.

Defence Minister Visits City

There has been a good response to recruiting in all three branches of Canada's peace-time permanent military forces, it was stated Wednesday at an Edmonton press conference with Hon. Douglas Abbott, minister of national defence.

THE MINISTER was accompanied by Mrs. Abbott and his secretary. They were welcomed at the CNR station by the provincial, city military and business dignitaries including Premier Ernest Manning, Mayor Harry Ainlay, Maj. Gen. F. J. Worthington, C.R. MC, M.M. ED., general officer commanding, Canadian Western Command, Cdn./Husky Pike, officer commanding HMCS Norsuch, Lt. Col. R. A. Keane, DSO, Capt. John Reeves, aide de camp to Mr. Abbott, and A. R. Strickland, OBE, public relations officer for the Western Army Command, and J. W. Stambaugh, president of the Alberta Liberal Association.

THE MAIN purpose of his trip which will take him on a tour of inspection of military centres in Canada, is to familiarize himself with existing conditions and to encourage the public to enlist.

Chief informant claiming the interest of Mr. Abbott in this area is the Alaska highway and the western army headquarters. He left early this morning by air plane for Whitehorse and will spend the day getting first-hand knowledge of the route.

"When we speak of the Alaska highway during house discussions I want to be in the position to know what I am talking about and I can do this much better if I can see the road rather than hear about it," said the defence minister.

THIS IS Mr. Abbott's first official trip west since he assumed the post of defence minister last year. While there was no special drive contemplated in a recruiting campaign for the reserve army his department was nevertheless encouraging it.

HE PAID tribute to the Citizens' Committee, organized in Alberta, and carried out through the Edmonton for the purpose of encouraging citizens to join the Reserve Army.

THE reserve is one of the chief local points associated with the active army is built," he said.

"I am tremendously pleased with the work of the Citizens' Committee, it has been splendid," said Mr. Abbott.

All rumors of possible invasion from the north were discounted by the defence minister who termed them "no much boom."

While in Edmonton he conferred with Fred Charley and J. A. Christensen, distributors.

Official of DVA To Give Address

W.T. Cronin, district superintendent of rehabilitation, department of veterans affairs, will address a teachers' convention at Coronation on Oct. 29. Mr. Cronin has chosen as his subject "Education and Citizenship."

He said there was no major expansion planned for Western Canada, but the company would meet developments here with suitable expansion when needed.

COMMENTING ON Alberta's highway system, which Mr. Cronin has travelled over extensively in his tour of the province, the president of the Ford company said that a splendid job of road-building had been done and taking into consideration that the province is extremely young, marvelous progress had been made.

Mr. Cronin said that the Ford Motor Co. was a Canadian company, and although there was the utmost co-operation between the American company and shareholders from 22 countries owned in Canada, including the United States, Malaysia, India and South Africa. He added that two cars-

Churchmen Attend Synod Meet

Principals at the first meeting of the Synod of Alberta of the Presbyterian Church in Canada, being held at First Presbyterian Church, are shown above after the election of a new moderator Tuesday evening. Rev. A. J. Gowlan Is Elected Presbyterian Church Moderator

The Rev. A.J. Gowlan of Calgary, minister of Knox Presbyterian Church, Calgary, was elected moderator of the Synod of Alberta of the Presbyterian Church in Canada, Tuesday night.

Designate 10 Streets For Development

Ten streets were designated by city council Tuesday as major streets, and the city commissioners were instructed to take steps to obtain the necessary property for the future development of these streets.

THE MAJOR street development, Mayor Harry Ainlay, told aldermen is a long-range plan, and would be undertaken gradually with the majority of the development many years hence. He said that many of the highways outside the city limits were involved in the proposals.

Council also authorized the city commissioners to approach the town planning department of the provincial government with a view to working out by-pass highways outside the city limits to connect with the Jasper highway west of the city and to provide eastern and western cut-offs to the Fairview highway.

THE ROADWAYS designated as major streets include 127 avenue from the east to west boundaries; 125 avenue between St. Albert and Fort Traffic; 135 avenue from the city limits east and west, with a jog to include Portage and Kingsway; 111 and 112 avenues to connect up the east end of 118 avenue between the city limits; 107 avenue on the north side from 124 street to 86 street; and 102 avenue from 86 street to 100 street.

At the request of the Rev. J. MacBeath Miller, minister of First Presbyterian Church, Calgary, and retiring moderator, and the Rev. A. J. Gowlan, minister of Knox Presbyterian Church, Calgary, the new moderator, Back row, right to left, are the Rev. J. MacBeath Miller, minister of First Presbyterian Church, and the Rev. E.H. Johnson, secretary of missionary education; the Rev. E.L. Garvin, clerk of the synod and the Rev. M.S. Blackburn, synodical missionary.

City Enjoying Indian Summer

The sun continues to smile on Edmonton, bringing with it a wealth of typical Indian summer days. Today's weather forecast shows promise of a continuation of the fine weather, with cloudless skies, light west winds and an estimated high temperature of 54 degrees.

Maximum temperature recorded in the city Tuesday was 57 degrees at 2 p.m., and the low was 21 degrees at 7:30 a.m. Overnight low, 18 degrees at 6:30 a.m. Wednesday. Estimated low temperature tonight is 20 degrees.

At Low Ebb

Out-of-pocket allowances being paid through the Edmonton branch of the department of veterans' affairs are at their lowest since their inauguration, according to an announcement from DVA, Wednesday. At the end of last week, out-of-pocket allowances were paid to 40 veterans in the Edmonton district on a three-week holiday tour.

## Psychology Banishes Child's Fear of Dental Chair

By WILLIAM J. COWAN

CHICAGO, Oct. 23 (AP)—They are fixing things now so Junior won't fear the dentist—and the dentist won't fear Junior, either. In the comparatively new but growing field of pedodontics—dentistry for children—psychology is being used to put youngsters at ease. And specialized training is being given to put practitioners in the same happy state.

A new graduate course in this specialty at the University of Illinois College of Dentistry, includes instruction in the fine art of child management. The procedure recommended requires knowledge and finesse, but they are quite simple.

A pedodontologist first sits close to the patient. He determines the level of the child's emotional and mental development, and speaks the child's language. He'll talk with a four-year-old about things very close to the tot's heart, toys, picture books, and conversation with a six-year-old about football or basketball. A few minutes of this kind of conversation will follow the lifting of government controls in Britain, in the opinion of William Ferguson, Glasgow, director of the Scottish Co-operative Wholesale, and is John A. Stirling, also a director of the organization, is making a round-trip tour of Canada visiting co-operative organizations here, and studying general conditions.

While in Edmonton they will visit the Northern Alberta Dairy Pool plant. The Alberta Co-operative Wholesale, and the Alberta Poultry Producers plant. Also with the party is J. P. Fraser, Winnipeg, in charge of the Winnipeg office of the organization.

Prior to coming to Edmonton the party visited company elevators in Manitoba and Saskatchewan, and made extensive purchases of tobacco in the United States. These purchases exceeded the \$10,000 mark, Mr. Ferguson stated.

HE SAID THE Scottish Co-operative Wholesale was the largest floor mill in Scotland, and that one in every four of the loaves eaten in Scotland were baked and milled by the organization. He also said that the organization was the largest milk distributing agency in Scotland and supplied approximately 33 per cent of the total consumption of this product.

## Education Is Fortification

WINNIPEG, Oct. 23 (CP)—Education, in the broadest sense, is the fundamental fortification of democracy, Dr. Charlotte Whitton told a meeting of the Independent Order Daughters of the Empire here Tuesday night.

"Only through education can peace be preserved—education teaches correct thinking, teaches the meaning and purpose of life. People too unskilled to know how to think have been told by skilled propagandists what to think."

## Score Centuries

PORT PHILLIP, Australia, Oct. 23 (Reuters)—Len Hutton and Dennis Compton of Britain's touring Marylebone cricket club Tuesday scored their first centuries in Australia, crumpling M. C. C. to amass 487 runs for six wickets during the first day of a five-day match against a south Australian country eleven.

## Edmonton School Teachers Open Convention Thursday

Edmonton school children will enjoy a two-day holiday Thursday and Friday, while their teachers gather in Garneau school for their 21st annual convention.

THE CONVENTION WILL GET UNDERWAY at 9 a.m. Thursday, when registration will take place. General sessions will be held Thursday morning and Friday afternoon. On Thursday afternoon and Friday morning, the convention will meet in sections to deal with elementary, intermediate and high school problems.

Highlight of the Thursday morning general session, will be an address by Dr. J.B. McIntosh, professor of education at the University of Saskatchewan. Subject of his address will be "Does Education Pay?" At 10:30 a.m. E.C. Agley, general secretary-treasurer, will give a report on pensions and research.

PRESIDENT THOMAS M. BLACKLOCK will address the gathering with his presidential report at 9:45 a.m., following which, greetings will be heard from I.B. Sheppard, superintendent of public schools and A.A. O'Brien, superintendent of separate schools.

In the Friday afternoon general session, the meeting will get underway with an address by W.S. Ross on the "International Scene." This will be followed by a report from I.B. Sheppard, graphic representative, Edmonton district, and a business meeting where electoral ballots will be received and other business conducted.

THURSDAY EVENING, THE ENTIRE convention will gather in the Macdonald hotel for a banquet meeting. Guest speaker on this occasion will be Dr. J.B. McIntosh, who has chosen as his theme, "Some Deeper Aspects of Citizenship Education."

Hollywood Whips Vancouver by 4-1 VANCOUVER, Oct. 23 (CP)—A three-goal scoring spree in the last few minutes of play gave Hollywood Wolves a decisive 4-1 victory last night over Vancouver Canucks and moved the Californians into a three-way tie with Portland and Seattle for leadership of the Pacific Coast Hockey League.

Andy Cloverchuck scored Vancouver's lone career in the first period but Gus Mancuso tied the score in the second and the Wolves pulled in three more late in the third with Larry Bellinger getting two and Lenny Arnesen making the other.

## Sees Increased Trade with U.K.

Extensive increases in trade between Canada and the British Isles will follow the lifting of government controls in Britain, in the opinion of William Ferguson, Glasgow, director of the Scottish Co-operative Wholesale, and is John A. Stirling, also a director of the organization, is making a round-trip tour of Canada visiting co-operative organizations here, and studying general conditions.

While in Edmonton they will visit the Northern Alberta Dairy Pool plant. The Alberta Co-operative Wholesale, and the Alberta Poultry Producers plant. Also with the party is J. P. Fraser, Winnipeg, in charge of the Winnipeg office of the organization.

## Dr. Gardner To Give Talk

Canada's life in the Tantalum and Columbian Industries is the title of an address to be given by Dr. Daniel Gardner, of New York, N. Y., at the Macdonald hotel Monday, Oct. 23 at 6:30 p.m.

THE MEETING is being sponsored by the Engineering Institute of Canada, Edmonton branch and by the Canadian Institute of Mining and Metallurgy and the Chemical Institute of Canada.

Dr. Gardner has come to Edmonton to supervise the construction of a refining plant of tantalum and columbium here, to be erected by the Tantalum Mining and Refining Corporation of America.

J. W. Porteous, chairman of the board, will preside at the meeting.

## School Board Finishes Pre-Election Business

Final meeting of the 1934-46 Edmonton public school board was held in the Civic Hall Tuesday evening with chairman F. Armour Ford, C.P., presiding. No further meetings will be held until Friday, Nov. 5, two days after the civic election.

OF THE present board, three members, F. Armour Ford, Mrs. Elizabeth Stirling Higgins and Mrs. C. Butterworth will remain in office for the second year of their terms. A one-year vacancy, formerly filled by the late A. E. Otwell, will exist and elections will decide three board members to serve two-year terms.

Highlight of the Tuesday meeting was the approval of a request received from Hon. R. E. Anley, minister of education, granting permission for the acceptance of a limited number of Greek students in Edmonton high schools, without payment of non-resident fees.

In his letter, Mr. Anley pointed out that he had received correspondence from the ambassador of Greece at the Royal Greek Embassy, Ottawa, regarding assistance to Greek students, until such time as educational institutions can be re-established in Greece. Mr. Anley pointed out that the University of Athens has received the assistance of three students, without payment of fees.

ROSS SHEPPARD, superintendent of schools, stated that as yet no applications had been received regarding ending of these students in city high schools.

In response to a request from the Queen Alexandra Home and School Association, the board is investigating the possibility of the installation of a soup bar in the Queen Alexandra school. If approved, the bar will be operated by members of the Home and School Association.

## Mrs. A. J. Richards Is Dead in City

President of Edmonton since 1908, Mrs. A. J. Richards, died at her home, 1002 7th avenue, Tuesday evening.

Mrs. Richards was the wife of former alder to his Honor L. Gov. J. C. Brown, who was also president of the Alberta Government Telephones.

She is survived by her husband, three brothers, Dr. George E. Chapman, San Francisco; Charles B. Chapman, London, England; and Frederick Chapman, San Francisco.

A funeral service will be held at 3:45 p.m. Friday with the Rev. Angus MacQuarrie officiating. Burial will take place in Edmononton cemetery.

## REPORTS ON TRIP

Highlight of the luncheon meeting of the Gyrro club held in the Macdonald hotel Tuesday, was a report from president, Austin Grant, on his recent trip to Buffalo, N.Y., where he attended the Gyrro International convention.

## 10,130 New Homes Built This Year

OTTAWA, (CP) — Reports filed by 162 municipalities cover 10,130 new homes built in the eight months ended August 31, the Dominion Bureau of Statistics said Tuesday. This was equivalent to 10 per cent of the 1946 total for the entire year.

Reports from other municipalities, covering varying periods listed an additional 5,522 new homes, bringing the total to 15,652, compared with 20,740 in 1945.

ROTORUA, N.Z. (CP) — The little New Zealand town, about 30 miles southeast of Auckland, is the centre of a thermal wonderland, where the dominant feature is the geysers and steaming valleys.

It lies in an extinct volcanic area, where the lava flows are still visible. There are several great craters, and the town has been developed in a centre to which hundreds come for the beauty of the landscape, as well as the variety of unusual sights.

Through the town has a population of only about 800 there are the famous geysers, mud pots and mud volcanoes.

On a cold morning, the surrounding wooded hills and valleys present a strange aspect as the boiling geysers send clouds of steam into the air.

Driving down Rotorua's wide streets one sees springs in open back yards.

On the outskirts of the town is the famous Lake Taupo, one of the most beautiful lakes in New Zealand.

Some of the most beautiful scenery in New Zealand is to be found in the vicinity of Rotorua.

Because of the popularity of mineral baths, Rotorua has become a famous health resort.

Another lake bathhouse has been built on the shore of Lake Taupo, and a tea house is also being built.

The entrance to the bath house is through a tunnel which is built into the side of a hill.

## Jewish Settlers Seize Land in Defiance of Government

BEIRUT, (CP) — Jewish settlers carried out their "Day of Atonement" by seizing 10,000 acres of land in defiance of the government.

The settlers, who are led by a group of Jewish leaders, seized the land in the area of the city of Haifa.

The government has ordered the settlers to leave the land, but they have refused to do so.

The settlers claim that the land is theirs by right, and they are willing to fight for it.

The government has ordered the settlers to leave the land, but they have refused to do so.

## Goodrich Workers End Long Strike

KITCHENER, Ont. (CP) — Goodrich workers ended their 11-day strike Tuesday by returning to work.

The strike, which began on Monday, was the longest in the history of the Goodrich Rubber Company.

The workers, who are represented by the United Rubber Workers of America, had demanded a 10 per cent wage increase.

The company had refused to grant the increase, and the workers had gone on strike.

The strike ended Tuesday afternoon, after the company agreed to grant the increase.

The workers returned to work at 10 o'clock Tuesday morning.

The company had agreed to grant the increase, and the workers had returned to work.

## Manitoba Indian Accused of Murder

VIRDEM, Man. (CP) — A murder charge was laid Monday against Joseph Duro, Indian from a nearby reserve, following an inquest into the death of H. O. Dillmore, slain buyer of Bellevue, Man.

Dillmore, 40, was slain by a bullet which penetrated his chest, doctors testified, contained quantities of alcohol.

The inquest, which began Monday, was held at the home of Dillmore's wife.

Dillmore was slain on the morning of Oct. 6. His head had been injured and there were signs of a struggle.

## West Coast Storm Hits Small Craft

VANCOUVER, (CP) — Marine authorities counted heavy damage among small craft and at least eight men saved from drowning in heavy seas which lashed the Gulf of Georgia early Tuesday.

One gillnetter drowned and drifted away after rescue of his two crewmen, a tug grounded and was holed and her stevedores rescued in a lifeline and a seiner grounded in the Fraser river.

The 40-foot American tugboat, which was carrying six men, was holed and the crew was rescued.

## INCOME TAX CHANGES WILL AFFECT EXEMPTIONS FOR CHILDREN IN 1947

All Taxpayers Should Take Family Allowances to Benefit

In 1947, it will be assumed that all children under 16 years of age are dependent on their parents. Therefore, in order to obtain the full benefit from exemptions and Family Allowances, those not yet receiving Family Allowances should apply for them now.

Finance Minister Flinn, in his Budget Speech, announced changes in the Family Allowances and Exemptions for children under 16 years of age. He advised that income tax exemptions for children under 16 years of age will be available to all taxpayers who claim them in 1947. This applies to taxpayers who claim them for their children in 1947. The application for these exemptions will come from the children's parents.

If you are an income taxpayer with children under 16 years of age, you are advised to register them now for Family Allowances, if you have not already done so.

In that way, taxpayers in all income groups can obtain the full benefit from Family Allowances and the exemption from taxable income of \$100 for each child, as provided for in the Income Tax Amendment passed during the last session of Parliament.

These changes take effect on January 1st, 1947, and from that date on, the Income Tax Department assumes that all taxpayers with eligible children are receiving Family Allowances. However, you MUST REGISTER YOUR CHILDREN, to get Family Allowances.

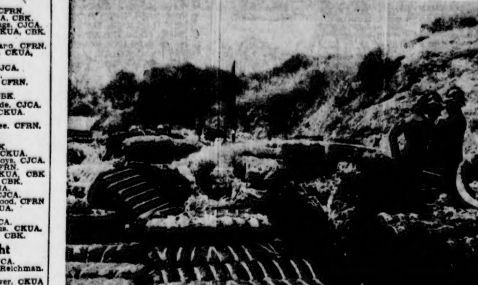

If you have not already done so, follow the instructions below and REGISTER your children NOW.

1. Family Allowances, Registration forms are obtainable at your local post office.
2. Fill in the form according to directions. (If you have received Family Allowances previously, please state and give Family Allowances serial number).
3. Write on the face of the form: "Payment to Begin, January, 1947".
4. Mail it to the Regional Director, Family Allowances in the capital city of your Province.
5. DO IT NOW! Your children will be the losers if you do not register in time to start payment in January.

Register now for  
**FAMILY ALLOWANCES**  
if you have not already done so

## Indian Rioters Burn Cotton Valued at \$600,000

Twenty thousand bales of long staple Indian cotton, valued at approximately \$600,000, were destroyed recently when fire destroyed the storage depot in Serri, Bombay. Every effort is being made to salvage the cotton which was being shipped to the United States.

## Tourist Delegate Lays Deceit River

OTTAWA, (CP)—A. A. Gardiner, C.N.R. representative at the inter-provincial tourist conference here, said Tuesday he believed many prospective visitors from the United States were being misled by the deceptive tactics of the British Columbia and Alberta tourism boards. He said that the British Columbia and Alberta tourism boards were using deceptive tactics to lure tourists to their respective provinces. He said that the British Columbia and Alberta tourism boards were using deceptive tactics to lure tourists to their respective provinces. He said that the British Columbia and Alberta tourism boards were using deceptive tactics to lure tourists to their respective provinces.

## Welles Gives U. N. Credit For Averting World Anarchy

MONTREAL, (CP)—Ex-lieutenant of the United Nations during the critical post-war period has had the credit of averting world anarchy. Mr. Welles, former undersecretary of state for the United States, said Wednesday night in the last lecture of his series under the John W. Duffie foundation.

His speech was a tribute to the United Nations, the security council, charged with the responsibility of maintaining the peace. He said that the United Nations had been successful in averting chaos which might otherwise have threatened the maintenance of peace.

Mr. Welles said that the United Nations must be strengthened and improved but this must be done on practical grounds rather than by advocating the immediate formation of a system of world government.

No World Government Yet  
Russia has already expressed her opposition to world government, Mr. Welles said, and the United States likely would feel reluctant to support it.

Can a world government be created? He said that the two greatest powers of the world refuse to take part in it. Or if we want for the sake of argument that the United States would take part in it and the Soviet Union would also, would such a world government then amount to a world government in name only?
